

## Ultrasonic cleaning transducer : AU-5554

| External dimension      |           | Performance parameter     |          |
|-------------------------|-----------|---------------------------|----------|
| Dimension of plate (mm) | Ø30×Ø12×5 | Static capacitance (Pf)   | 2500     |
|                         |           | Resonance frequency (kHz) | 42.0±0.5 |
|                         |           | Bandwidth (kHz)           | 3.90     |
| -                       | -         | Impedance(Ω)              | ≤25Ω     |
| Quality Factor -        | ≥350      | Insulated impedance (Ω)   | ≥10000MΩ |
| -                       | -         | Power (W)                 | 35       |
