36W 4 Ports USB Car Charger

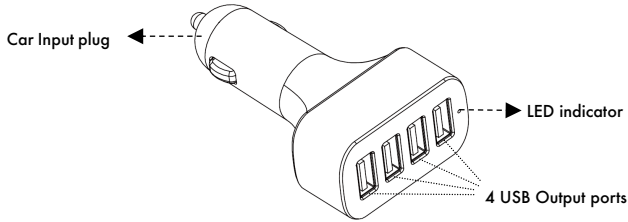

User Manual

Model: 611004

Owner's Manual

Thank you for purchasing the **36W 4 Ports USB Car Charger**. Please read this manual carefully. It contains important operating instructions. Please keep this manual for later reference.

This **Intelligent charger** is specially designed for your digital devices with safe and convenience use, it works with the most popular brands of Tablet, Smartphone, mobile phone, MP3/ MP4 player, portable gaming device, digital camera and Bluetooth. Compatible with iPhone, iPod, iPad, Galaxy Tab, HTC, Blackberry, Nokia, Sony Ericsson & Motorola...etc.

Specifications:

Input:	12-24V DC 3.5A
Output:	5VDC, Total 7.2A max. (4 USB ports), Max. output current of each port: 2.4A

Features:

- Converts your car's battery power from the cigarette lighter socket (12-24V DC) into FOUR x USB charging ports
- Powerful - can be used to charge 4 USB devices at the same time
- Equipped with **SMART charging IC** for Auto detection which is so smart to recognized the mainstream of USB power devices and allows to provide their full charge current
- Fit for most of the popular brands of Tablet, Smartphone, mobile phone, MP3/MP4 player, portable gaming system and other USB-powered electronic devices
- Compatible with iPad, iPhone & iPod
- Stabilized output & low ripple
- With LED Power indicator

Safety Features

- With Short-circuit Protection (SCP) & Overload Protection (OLP)

Charging your USB devices

Important: *Check for voltage compatibility with your USB device first*

1. Before using, check your USB device's input voltage and this USB charger's output voltage if they can match. Make sure the total loading does not exceed the rated output current of this USB charger.
2. Connect your USB device and the USB port of this charger via a charging cable.
(To ensure complete safety and best performance, we strongly recommend using the original charging cable of your device)
3. Plug this cigarette lighter plug into the 12-24V car socket and the LED indicator will light on instantly.
4. This Intelligent USB Car charger will detect the best charging mode and start charging your device automatically.
5. Your digital device should indicate it is now in charging mode
6. Please unplug this charger from car cigarette lighter socket when not in use

Smart Charging IC detection

This Intelligent USB Car charger is specially designed with USB dedicated identification circuit which makes it suitable for charging various brands of Smartphone, tablet or any other USB power devices at their full charge rate as using an original charger.

Important Safety Instructions

1. Do not short circuit the output terminals.
2. Ensure correct voltage is used as continuous excessive voltage could damage your equipment.
3. Do not try to use this power supply with appliance requiring more than the rated output.
4. Do not attempt to open this unit.
5. Remove from car cigarette lighter socket when not in use.
6. Always turn off the Digital device before you connect/ disconnect from the USB charger.
7. Please do start the car engine first then plug in the USB charger.
