Charging:

1. Insert the USB charging cable in a suitable 5VDC mains power adaptor (not included) or a suitable USB charging port such as a computer.

2. Insert the micro B USB plug of the USB charging cable into the USB power socket of the earphones.

3. The LED status indicator will light up red once charging has started.

4. Once fully charged; the LED status indicator will change to blue. It takes up to 2 hours for a full charge.

Note: It is suggested to turn the earphones off while charging.

Troubleshooting:

Problem:	Solution:
Battery Won't Charge Or Power On	Connect to a suitable USB charging source such as a USB mains power adaptor or USB charging port and make sure it's correctly turned on.
	Make sure the battery is fully charged up to 2 hours and make sure the LED status indicator has turned off.
No Audio	Ensure the volume is correctly turned up on your smartphone.
	Ensure the earphones are correctly paired and turned on.
	Turn the earphones off and on again, turn off the Bluetooth of your smartphone or tablet and turn back on.
	Ensure the earphones are in Bluetooth range. They will automatically connect if you come back in range within 3 minutes
No Power / LED Indicator	Ensure the USB charging cable is connected properly to a USB charging port or USB charging adaptor.
	Check to see if your USB power source is working correctly.

Safety:

1. Do not open the earphones to prevent the unit from damage.
2. Keep the earphones away from high temperatures as it may damage the device.
3. Do not expose the earphones to water or liquids to prevent the unit from damage.
