LED INDICATOR:

In Wireless mode:

A Red/Blue light will blink, when the headphone is trying to connect to a Smart Phone/Bluetooth device.

A Blue light will stay on, when connection successful.

In ANC mode:

AUX: Green light stays On.

Wireless: Blue light stays On and Green light flashes.

In charging mode:

A Red light stays On when charging.

When fully charged, the Red light will switch off.

SETTING UP YOUR HEADPHONES (BLUETOOTH®):

1. Press and hold the [•] button to turn on the headphones. Bluetooth® will be already active as soon as you turn on the headphones. The Red/Blue light will start to blink.
2. On your Smart Phone/Bluetooth® Device, turn on Bluetooth and search for device name “AA2170”.
3. Pair your Smart Phone/Bluetooth® Device to “AA2170”, it should connect automatically.
Note: On occasion it may request for a password before pairing. Default password is “0000”.
4. If the pairing is successful, the Blue light on the headphones will stay on.
5. You can now playback music/tracks from your Smart Phone/Bluetooth® Device. The controls on the headphones are now active. You can answer phone calls, play/pause music and adjust volume etc.

USING AUX CONNECTION:

1. Plug in the AUX cable into the headphones. This will disable Bluetooth® on the headphones.
2. Plug in the other end of the AUX cable to your Smart Phone/Playback Device. Supports Mobile phones/MP4/MP3/CD/PC etc.
3. Active Noise Cancelling can be activated while connected via AUX by toggling the ANC Switch.
