Functional operation instructions

1. Boot

Take the headset out of the charging box and automatically turn it on or press and hold the left and right headset multifunction button for 3 seconds

2. Shut down

Put the headset into the charging box and turn it off automatically. Press and hold the left and right headset multifunction button for 5 seconds to shut down

3. Boot back:

When the pairing is successful, the Bluetooth headset preferentially enters the connected state when the second time is turned on, and automatically connects back to the connected mobile phone

4. Play / Pause

In the standby mode, click the left and right earphones

multi-function keys to play music directly. When playing, click the left and right earphones multi-function key to pause playback

5. Switch songs / The volume and subtract/enable Siri

When playing music, press the earphone multifunction button three times to switch up and down music, and double click the earphone multifunction button to increase and decrease the volume. Long press 2 seconds to enable Siri

6. Call answering

When the mobile phone calls, click the left and right earphones multifunction button to answer the call

7. Call hang up

When the phone is talking, click the left and right earphones multifunction button to hang up the phone

8. Call rejection

When the mobile phone calls, long press the left and right earphones multi-function button for 2 seconds to reject the call

9. Low battery prompt

When the battery of the Bluetooth headset is low, the low battery tone will be played every 30 seconds until the headset is powered off

Pairing method

1. Take out from the charging bin or press and hold the left and right earphones multi-function button for 3 seconds to turn on until the red and blue lights flash alternately, enter the ear search pairing state, enter the ear pair automatic matching, and match the main ear (right ear). The red and blue lights are alternately flashing, the secondary ear is flashing slowly, and the paired ear is successfully played.

2. Start the Bluetooth function of the mobile phone or other devices. If it is an Android mobile phone or device, please click the "Search for Bluetooth device" option. If it is the iOS system mobile phone or device, it will automatically search for the device; when searching for the model of the Bluetooth headset. After that, click to enter the pairing; when the pairing is successful, the main (right) earphone will make a prompt to connect successfully, and the left and right earphones will turn blue and flash slowly, and enter the connection standby state. After the pairing is successful, the main ear is the right channel. The secondary ear is the left channel.

3. The two earphones can also be paired with the mobile phone separately. The operation method can be operated according to the above step 2 operation method.

Charging operation

1. To Micro USB charging line, plug in the USB port side of the charging box, plug in charger to charging box, box of battery charging in the corresponding display the number above.

2. Earpiece: put headphones in charge box can automatic charging, charging the headset indicator light is red after a full charge out; Charge box long blue light is bright, when the headset on a full charge after charging box all the blue indicator light go out.

Precautions

1. Charge in a safe environment. When charging the charging box, please charge the charging box separately from the USB charging cable as soon as the charging indicator indicates full power, so as to avoid damage to the charging box after a long time of charging.

2. When playing music, please adjust the music to the appropriate volume to avoid hearing damage at high volume for a long time.

3. Try to avoid using the headset in a place with interference sources, otherwise it may affect the headphone signal.

4. Try to avoid using this headset in a corrosive environment to avoid affecting the function of the headset.

Tips: When you use this Bluetooth headset to listen to music or talk, please pay attention to adjust the volume properly, so as not to affect the hearing of excessive volume!

Warranty Information

Our product is guaranteed to be free from manufacturing defects for a period of 12 Months.

If your product becomes defective during this period, Electus Distribution will repair, replace, or refund where a product is faulty; or not fit for intended purpose.

This warranty will not cover modified product; misuse or abuse of the product contrary to user instructions or packaging label; change of mind and normal wear and tear.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and failure does not amount to a major failure.

To claim warranty, please contact the place of purchase. You will need to show receipt or other proof of purchase. Additional information may be required to process your claim.

Any expenses relating to the return of your product to the store will normally have to be paid by you.

The benefits to the customer given by this warranty are in addition to other rights and remedies of the Australian Consumer Law in relation to the goods or services to which this warranty relates.
