Code Set up

(Example: To set up the TOTAL CONTROL REMOTE for your television)

1. Find the **four-digit device code for your device (e.g. Accent television) in the Code list.** Codes are listed by device type and brand name. The most popular code is listed first. If your brand is not listed at all please try the Code Search. Make sure your equipment is switched on. If not switch it on manually.
2. Select the device key (e.g. **TV** key) corresponding to the device you wish to control (e.g. television).
3. Press and hold down the **SETUP** key until the red LED underneath the POWER key blinks twice (the red LED will blink once then twice).
4. Enter your **four-digit device code** using the number keys (e.g. TV - Accent code **0037**). The red LED lights up twice.
5. Now, **aim the TOTAL CONTROL at your device and press POWER.** If your device switches off, the **TOTAL CONTROL REMOTE** is ready to operate your device. If it does not switch off your device simply try the next code listed for your brand.

If none of the codes listed for your brand work please try the Code Search. The Code Search may also work if your brand is not listed at all).

To set up the code for another device follow the instructions above only press the appropriate device key instead of TV during step 2.

Code Search

The Search Method allows you to find the code for your device by scanning through all the codes contained in the memory of the TOTAL CONTROL. The Search Method may also work if your brand is not listed at all.

1. Switch on your television (not on standby).
2. Select the **device key** (e.g. TV key) corresponding to the device you wish to control (e.g. television).
3. Press and hold down the **SETUP** key until the red LED underneath the POWER key blinks twice (the red LED will blink once then twice).
4. Press **9 9 1**. The red LED will blink twice.
5. Next, press **POWER**.
6. Aim the TOTAL CONTROL at your Television. Now press **CH+** over and over, until your Television turns off (everytime you press the CH+ key the TOTAL CONTROL will send out a POWER signal from the next code contained in the memory). You may have to press this key many times (up to 150 times) so please be patient.
7. As soon as your television turns off, press the **SETUP** key to store the code.
