

CD Personal Music Player

User Manual

GE-4085

Please read this manual thoroughly before use and retain for future reference.

Safety information & Warnings

A triangle with a lightning symbol draws the user's attention to "dangerous voltage" without insulation in the cabinet which may be high enough to entail a risk of electric shock.

WARNING

RISK OF ELECTRIC SHOCK
DO NOT OPEN

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). THERE ARE NO USER SERVICEABLE PART INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

A triangle with an exclamation mark draws the user's attention to important instructions for use and maintenance in the accompanying manual, which should be studied.

FURTHER INFORMATION

Beware of small pieces and batteries, do not swallow them. It may be hazardous to your health and lead into suffocation. Please, Make sure to keep small devices and batteries out of the reach of children.

Important advice regarding hearing protection

Caution:

You care for your hearing, and so do we. Therefore, use caution while using this appliance.

Our recommendation: **Avoid high volumes.**

Children should be supervised while using headphones; make sure that the appliance is not set to high volume.

Caution!

High volumes may cause irreparable damage to children's ears.

NEVER let allow anyone, especially children, to put object into the holes, slots or openings on this device. The device must only be opened by a qualified personnel.

Only use the appliance for its intended purpose.

This device may only be used in housings and business premises.

Please keep this instruction manual for further reference.

Do not obstruct the ventilation of the device. Make sure, that no curtains, newspaper, furniture or any other type of object are blocking the ventilation system of the apparatus. The ventilation system must be

clear of objects at all times! Overheating may lead into serious damage of the device and reduce its performance and lifespan.

Heat and warmth

Do not expose the appliance to direct sunlight. Make sure that the appliance is not subject to direct heat sources such as heaters or open fire. Make sure that the

ventilation slots of the appliance are not covered.

Moisture and cleaning

This appliance is not waterproof! Do not immerse player in water. Do not allow player to come in contact with water. If water gets inside the player it may cause serious

damage. Do not use cleaning agents that contain alcohol, ammoniac, benzene or abrasives as these could damage the player. For cleaning, use a soft, moistened cloth.

Professional recycling

Batteries and packaging should not be disposed off in the trash. Batteries must be handed over to a collection centre for used batteries. Separating disposable packaging

materials is ecologically friendly.

Traffic Safety :

Never listening to music when you cross a road or driving car.

Important Safety Instructions

1. **Read Instructions** – All the safety and operating instructions should be read before the unit is operated.
2. **Retain Instructions** – The safety and operating instruction should be retained for future reference.
3. **HEED Warnings** – All warnings on the unit and in the operating instructions should be adhered to.
4. **FOLLOW Instructions** – All operating instructions should be followed.
5. **Water & Moisture** – The appliance should not be used near water, for example, near a bathtub, washbowl, kitchen sink, laundry tub, swimming pool or in a wet basement.
6. **Ventilation** – Openings in the device serve its proper ventilation, are necessary for the operation and prevent overheating. The unit should be situated so that its location or position does not interfere with its proper ventilation. Do not place on bed, sofa, rug or similar surface that may block the ventilation openings, in a

built-in installation, such as bookcase or cabinet that may impede the flow of air through the ventilation openings.

7. **Heat** – The unit should be situated away from heat sources such as radiators, stoves, or other appliances (including amplifiers) that produce heat.
8. **Power Source** – The unit should be connected to power supply only of the type described in the operating instructions or as marked on the unit.
9. **Power cord protection** – If external adaptor (not included) for power supply is used, wire should be routed so they are not likely to be walked on or pinched by items placed upon or against them.
10. **Non-use** – During longer period of non-use please disconnect from adaptor or remove batteries, to avoid damage by leaking batteries.
11. **Object and liquid entry** – Care should be taken so that objects do not fall and liquids are not spilled into the unit or enclosure through openings.
12. **Damage requiring service** – The unit should be serviced by qualified service personal when:
 - a. Objects have fallen into, or liquid has been spilled into the unit enclosure.
 - b. The units has been exposed to rain or moisture.

- c. The appliance has been dropped , or the enclosure damaged. Only use control and adjustments as specified in the manual.
 - d. The unit does not appear to operate normally
 - e. The device displays serious changes in its performance.
13. **Servicing** – The user should not attempt to service the unit beyond that described in the user operating instructions. All other servicing should be referred to qualified service personnel.
14. **Cleaning** – Disconnect from mains power supply before cleaning. Do not use liquid or spray cleaners, only use a damp cloth. Follow the care and the maintenance instructions in this manual.
15. **Safety Check** – After servicing the unit ask the customer service for a safety check.
16. **Overload** – To avoid fire and electric shock do not overload wall outlets and convenience receptacle.
17. **Electrostatic discharge** – Disconnect from main power supply and remove batteries of unit malfunctions.
- Reconnect after a short time.

Note about this instruction manual

1. This instruction manual is published by the manufacturer without any warranty. Corrections and changes of this instruction manual for the removal of typographic mistakes and editorial inaccuracies as well as due to (technical) improvements (changes) of the devices can be done by the manufacturer at any time without announcement. Change of this kind are considered in future versions of this user manual. All rights reserved.
2. All figures are only for illustration and do not always show the exact representation of the product.
3. This unit is not intended for use by persons (including children) with reduced physical, sensory, or mental capacities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the unit.

Setting a safe volume level

If you continually listen to loud music, your hearing gradually adapts to it and gives you the impression that the volume is lower. To protect yourself from this, set the volume to a low level and increase the volume slowly. Damage to your hearing can be extensive and cannot be reversed. If you notice a hearing problem, please consult a doctor.

Condensation

Condensation may occur when moving the device from a cold to a warm environment. If there is moisture inside the player, it may not operate properly. Don't turn on the device and wait about one hour for the moisture to evaporate.

Saving energy

When the unit is not used, it is advised to remove the batteries.

Unpacking

Carefully remove the unit from the packing. Please keep the packing for further use.

Operation

1. CD Door
2. LCD Track Number Display
3. On/Play/Pause button
4. Stop/Off button
5. Mode button
6. Program button
7. Rewind button
8. Fast Forward button
9. CD Door Open button
10. Battery compartment
11. Digital volume control
12. Earphone Jack (3.5mm)
13. DC Jack (DC 4.5V)

Battery

1. Open the battery compartment lid on the bottom of the unit. Remove the battery cover and insert 2 batteries (AA size). Please observe correct polarities when inserting the batteries.
2. Close the battery compartment by pushing in the two tabs of the lid into the corresponding recesses and flap it towards the device, until the brackets audibly snap in.

Important:

If the device is operated exclusively or kept non-use for more than one month, please remove the batteries in order to avoid any damage by leaking batteries.

Replace the batteries if the volume of the device becomes lower or the sound becomes distorted.

Battery Safety Precautions

Follow the battery manufacturer's safety, usage and disposal instructions.

Only use batteries of the same type and size

Insert the batteries observing the polarity (+/-). Failure to properly align the battery polarity can cause personal injury and/or property damage.

Do not mix battery types (e.g. alkaline, zinc/carbon, rechargeable batteries) or exhausted and new batteries. To avoid fire and explosion do not recharge normal batteries. Keep batteries away from children and pets. We recommend the use of alkaline batteries for a longer lifetime of the batteries.

Power Supply AC Adaptor Operation

The device is designed for power supply AC adaptor (DC 4.5V,600mA) optional but not included. Do not connect the device to any other power supply to avoid damage that is not covered by your warranty.

1. Connect the smaller plug to the DC jack at the left side of the device. Make sure that the plug is completely inserted.
2. Insert the adaptor to a wall outlet.
