SMALL WONDER

Discover how much can be packed into a fridge/freezer that measures just 393 x 236 x 443mm. The 8L version can accommodate 10 cans, while the 18L model can hold four bottles of bubbly standing upright, and both units include a USB port for charging your devices on the go. As if that wasn't enough, the optional lithium battery and solar-ready charging system let you keep it running on the beach or in the park, without connecting it to an external power supply.

WHY YOU NEED IT

- Instead of a wine cooler or small icebox, you can take a real compressor-type fridge/freezer to a party/picnic or al fresco dining.
- Ingenious design and low price point make these excellent gift ideas.

BEST FOR...

- Chilling champagne (GH2046/GH2048)
- Sophisticated picnics
- Families, couples, party goers, picnic lovers, gadget fans...

ADDITIONAL FEATURES

- Digital control panel
- Solar ready (get power directly from a solar panel)
- 3-stage low voltage battery protection
- 12/24V car cigarette power lead included
- 240VAC to 12VDC mains power adaptor GH1628 (sold separately)
