Important Notice:

Please retain original packaging for Warranty purposes. Please return with ALL supplied accessories. Supplier reserves the right to make changes at any time without prior notice.

Warning and Precautions

	Warning Risk of electric shock, do not open.	
Warning: To avoid the risk of electric shock, do not remove cover (or back). No user-serviceable parts inside. Refer servicing to qualified service personnel.		

The lightning flash with arrowhead symbol, within an equilateral triangle is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to a person.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

WARNING: TO PREVENT FIRE OR SHOCK HAZARDS, DO NOT EXPOSE THIS APPARATUS TO RAIN OR MOISTURE.

CAUTION: TO ENSURE PERSONAL SAFETY, OBSERVE THE FOLLOWING RULES REGARDING THE USE OF THIS UNIT.

1. Operate only from the power source specified on the unit.
2. Avoid damaging the AC plug and power cord.
3. Avoid improper installation and never position the unit where good ventilation is unattainable.
4. Prevent objects or liquid from falling into the cabinet openings.
5. In the event of a mechanical breakdown, unplug the unit and call a service technician. Do not attempt to repair it yourself or remove the rear cover.

Changes or modifications not approved by JVC could void the warranty.

- * When you don't use this TV set for a long period of time, be sure to disconnect the adaptor from both the AC outlet and antenna for your safety.
- * To prevent electric shock do not use this power plug with an extension cord, receptacle or other outlet unless the blades can be fully inserted to prevent blade exposure.

Do not attempt to service the product yourself

Caution

To prevent electrical shock, do not open the TV casing.
There are no user serviceable parts inside.
Please refer to qualified service personnel for repairs.

Important Safety Instructions

- 1) Read these instructions.
- 2) Keep these instructions.
- 3) Heed all warnings.
- 4) Follow all instructions.
- 5) Do not use this unit near water.
- 6) Clean only with a dry cloth.
- 7) Do not block any ventilation openings. Ventilation should not be impeded by covering the ventilation openings with items such as newspapers, table-cloths, curtains etc. There must be a minimum distance of 5cm clear space around the unit at all times to ensure proper ventilation.
- 8) Do not install near any heat sources such as radiators, heat registers, stoves or other apparatus (including amplifiers) that produce heat. No naked flame sources such as lit candles, should be placed on or near the unit.
- 9) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles and the point where they exit from the unit.
- 10) Only use attachments/accessories specified by the manufacturer.
- 11) Use only with a cart, stand, tripod, bracket or table specified by the manufacturer or sold with the unit. When a cart is used, use caution when moving the cart/unit combination to avoid injury from tip-over.
- 12) Unplug this unit during lightning storms or when unused for long periods of time.
- 13) Refer all servicing to qualified service personnel. Servicing is required when the unit has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the unit, the unit has been exposed to rain or moisture, does not operate normally or has been dropped.
- 14) The unit should not be exposed to dripping or splashing and no objects filled with liquids, such as vases, should be placed on the unit.
- 15) Place the television on a stable, flat surface. Failure to do so can result in the television falling, causing injury.
- 16) Do not allow young children to play around or on the television. Do not hang from the unit. Failure to do so can result in the television falling, causing injury.
- 17) Do not allow young children to play with the plastic bag that came with the television when you unpacked it. Failure to do so can result in suffocation, which may lead to death.
- 18) Avoid improper installation and never position the unit where good ventilation is impossible. When installing this unit, distance recommendations must be maintained between the set and the wall, as well as inside a tightly enclosed area or piece of furniture. Keep to the minimum distance guidelines shown for safe operation.
- 19) **Cautions for installation**
 - Do not tilt the unit left, right or towards the back.
 - Ensure the power cord is out of the path of foot traffic.
 - The unit will generate a slight amount of heat during operation. Ensure that sufficient space is available around the unit to allow satisfactory cooling.
 - Have two people remove the unit from the box with the screen facing away from you, to prevent clothing such as a belt buckle or buttons from scratching the front of the unit. Do the same when moving the unit to another location.

Important Safety Instructions

- 20) Make enough room for inserting and removing the power plug. Place the unit as close to the outlet as possible. The main power supply for this unit is controlled by inserting or removing the power plug. Physically disconnecting the power plug is the only way to completely disconnect the unit from the mains power source.
- 21) Batteries should not be exposed to excessive heat such as sunshine, fire or the like.
- 22) When this unit is connected to the wall outlet, it is always on standby even when all the LED lamps are not lit. To shut down the unit, unplug the unit from the wall outlet.
- 23) If the supply cord is damaged, it must be replaced before further use by the manufacturer, its service agent or a similarly qualified person in order to avoid a hazard.
- 24) Always place the TV on furniture that can safely support the TV. Make sure the ends of the TV do not hang over the edge of the supporting furniture.
- 25) Do not place the TV on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the TV to a wall or other suitably strong support.
- 26) Do not stand the TV on cloth or other materials placed between the TV and the supporting furniture.
- 27) Where the mains plug is used as the disconnect device, the disconnect device shall remain readily operable.

IMPORTANT INFORMATION

Never place a television set in an unstable location. A television set may fall, causing serious personal injury or death. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

- Using cabinets or stands recommended by the manufacturer of the television set.
- Only using furniture that can safely support the television set.
- Ensuring the television set is not overhanging the edge of the supporting furniture.
- Not placing the television set on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television set to a suitable support.
- Not placing the television set on cloth or other materials that may be located between the television set and supporting furniture.
- Educating children about the dangers of climbing on furniture to reach the television set or its controls.

If your existing television set is being retained and relocated, the same considerations as above should be applied.

Preparation for Your New TV

Check Accessories

Check the accessories that are packed with your TV.

Select TV Location

Select a flat, stable table on which to place your TV set. Please follow the Safety Instructions when placing the TV.

Connection and Usage

After placing your TV properly, you can connect the TV to the power supply and cable components. For further information, see page 7.

Preparation for Your New TV

Wall Mount Specifications

Model No. AV-J323142A

Compatible wall-mount size	Screw size for connecting the TV to the wall mount
VESA 200*100	M6 screws, length 8mmx4pcs*
<i>* The length of the screw specified is only a recommendation; actual length required can vary depending on the type of wall mount used.</i>	

Note:

1. The wall mount is not included with the TV; it needs to be purchased separately.
2. Use only VESA-compatible wall mounts according to the specifications recommended for this model. Use of other wall mounts or inappropriate installation may cause personal injuries or damage to the TV.
3. Please follow all instructions from the user manual of your chosen wall mount.

Preparation for Your New TV

TV Table Stand

The TV is packaged with the TV stand separated from the cabinet. To setup the TV table stand, please carry out the installation according to the instructions below.

Step One

- The panel can be scratched easily, so please:
 1. Choose an absolutely flat surface to place the TV on.
 2. Place a soft cloth on the surface and then place the TV on the cloth facing downwards. Do not place the TV on the surface directly.
- Always unplug the Power cord first when installing/removing.

Step Two

Take one leg and align the screw holes on the leg with the screw holes on the base of the TV. Insert and tighten the 2 screws to fix the leg to the TV unit. Repeat this procedure for the other leg.

The bottom view of the TV(front cabinet faces down).

DC 12V, 5A
POWER SUPPLY

This TV can be powered in two ways.

1. From mains supply via a DC 12V Mains Adaptor included.
2. From 12 V supply via the 12V Car Adaptor included.

TV Jacks

OPTICAL
USB

DC IN 12V Earphone Mini YPbPr VIDEO L R ANT. IN HDMI1 HDMI2/ARC

DC IN12V: Connect the Mains Power Adaptor or the Car Charger here to power the TV.

Earphone: Connect a headphone for personal audio or audio equipment.

MINI YPbPr: Connect the YPbPr output jack of DVD or VCR.*

VIDEO : Connect an AV device that has composite video jacks, such as a VCR or DVD player. Connect the Video output to the VIDEO input; connect the Audio outputs to the L/R inputs.

L: Left audio channel connection. The left audio connector is usually white.

R: Right audio channel connection. The right audio connector is usually red.

ANT.IN: Connect to receive the signal from your antenna or cable via coaxial cable . We recommend connecting to a good quality outdoor antenna.

HDMI1/2: (High-Definition Multimedia Interface) It provides an uncompressed digital connection that carries both video and audio data by way of an integrated mini-plug cable.

OPTICAL: Digital TV sound output.

USB: Plug in your USB memory device (e.g. USB stick) to play compatible files that are stored on it.

* Use the connector cable provided to convert the mini component (YPbPr) port to RCA inputs.

Mini Ypbpr (Component video input):
Green-Y

Red-Pr

Side Keypad and Front Panel

Keypad Buttons

If you cannot locate your remote, you can use the side keypad buttons on your TV to operate most of the TV features.

POWER (⏻): Turns the TV on and off or switches it to standby.

VOL+: Increases the volume. In the TV menu system, it acts like the right arrow on the remote control and can be used to select menu options.

VOL-: Decreases the volume. In the TV menu system, it acts like the left arrow on the remote control and can be used to select menu options.

CH▲ / ▶II: Short press to achieve CH+ function, long press to achieve PLAY or PAUSE function.

CH▲: Scans up through the channel list. In the TV menu system, it acts like the up arrow on the remote control and can be used to select menu options.

▶II: Play or Pause the DVD disk.

CH▼ / ▲: Short press to achieve CH- function, long press to achieve EJECT function.

CH▼: Scans down through the channel list. In the TV menu system, it acts like the down arrow on the remote control and can be used to select menu options.

▲: Insert or eject the disk

INPUT: Displays the Source Select List.

MENU: Displays the TV Main Menu.

Front Panel

Power/Standby Indicator: Blue and red dual-color LED. It shows red when the TV is turned off and blue when turned on.

Remote Control Sensor: Remote control IR sensor, which receives infrared rays sent by the remote control.

Power/Standby Indicator
Remote Control Sensor

Please note: If there is a protective film on the screen, please remove it before using the TV.

Remote Control Instructions

Inserting Batteries in the Remote

1. Remove the battery compartment cover from the back of the remote control by lifting the cover.

2. Insert 2 x AAA batteries, making sure the polarities (+and-) are aligned correctly.

3. Replace the cover.

If the remote control does not work, check these points:

- Are the polarities (+, -) correct?
- Are the batteries worn out?
- Is there an AC power failure?
- Is the power cord plugged in?
- Is there any interference or block near the remote control sensor?

CAUTION:

- Used batteries should be recycled.
- Keep out of children's reach.
- DO NOT use new and old batteries together.
- Change both batteries at the same time.
- When not using the remote control for a long time, remove the batteries from the unit.

Warning: Batteries(packed or in use)should not be exposed to high temperatures.

Remote Control Reception Angle

Use your remote control within the distance and angle range shown below.

Learning about Remote Control

Remote Control Buttons

POWER (⏻): Turns the TV on or switches it to Standby.

MUTE (🔇): Reduces the TV volume to its minimum level. Press again to restore the volume.

Troubleshooting

Before consulting service personnel, check the following chart for a possible cause and solution to the problem you are experiencing.

PROBLEM	SOLUTION
TV will not turn on	<ul style="list-style-type: none">● Make sure the mains adaptor or car adaptor is plugged in.● The batteries in the remote control may be dead. Replace the batteries if necessary.
I don't receive all the available channels or am having reception problems	<ul style="list-style-type: none">● Your antenna may not be sensitive enough or positioned properly, especially if you are using an indoor antenna. We recommend connection to a professionally installed external antenna. Some indoor antennas may work depending on your location to the broadcasting tower, however they usually won't tune all available channels and can produce intermittent reception.
How to tune channels/Not getting channels when TV is in a new location	<ul style="list-style-type: none">● TV will need to be re-tuned to get all available channels. Press Menu button on the remote control and choose Channel Menu, press OK button to enter. Then select Auto Search --> DTV and press OK button to start autosearch of available channels.
No picture, no sound	<ul style="list-style-type: none">● Check the interface cable between TV and antenna/cable TV.● Press the power button on the remote.● Press the INPUT button on the remote, then press the INPUT button repeatedly to select the TV sources.
Poor picture, sound OK	<ul style="list-style-type: none">● Check the interface cable between TV and antenna/cable TV.● Try another channel. The station may have broadcast difficulties.● Adjust the brightness/contrast options in the Video menu.
Picture OK, poor sound	<ul style="list-style-type: none">● Sound may be muted. Press the MUTE button on the remote.● Press the TV button on the remote, then press the VOL+ button to increase the volume.
Audio noise	<ul style="list-style-type: none">● Move any infrared equipment away from the TV.
I've lost or damaged my remote control	<ul style="list-style-type: none">● Please call customer service to buy a new one. Please note that universal remote controls will not work with this television.
How to do a factory reset on your TV	<ul style="list-style-type: none">● Press Menu button on the remote control and choose Setup Menu, press OK button to enter. Now select 'Reset TV setting' to reset your TV.
