Dummy Dome Camera
User Manual
LA-5332

Box Contents:

1 x Dummy Dome Camera   1 x CCTV Security Sticker   1 x Mounting Hardware

Installation:

1. Open the battery compartment cover located on the top of the camera.
2. Insert 3 x AA batteries (not included) in to the battery compartment using the correct polarity indicated by the positive (+) and negative (-) markers.
3. After the batteries have been inserted; close the battery cover.
4. Using the included mounting guide; mark the screw holes in the wall or ceiling where you wish to mount the camera.
5. Fix the camera in place by using the screws provided or wall plugs if you're drilling into surfaces such as brick or concrete.
6. Leave the screw and wall plugs out of the screw holes slightly so that it can attach to the screw mounts on the camera.
7. Place the dome camera on the screw holes and twist clockwise depending on the installation to hold the camera in position.
