# Automatic SLA Battery Charger 6V/12V/24V 1.2A

## Instruction Manual

Please read and save all instructions to ensure safe and effective use of this product.

## CAUTION

- Before charging, read instruction.
- This charger is intended for use with Lead Acid rechargeable batteries only. Attempting to charge other types of batteries may cause personal injury and damage to the charger.
- Do not expose charger to rain or moisture. For indoor use only.
- Remove from mains when not in use.
- Never use an extension cord or any attachment not recommended by manufacturer, otherwise this may result in a risk of fire, electric shock or injury to persons.
- Do not operate the charger if it has been subjected to shock or damage. Take it to a qualified serviceman for repair.
- Do not disassemble the charger. Incorrect reassemble may result in a risk of electric shock or fire.
- Unplug the charger from outlet before attempting any maintenance of cleaning.
- This charger is intended to be correctly orientated in a vertical or floor mount position.
- During charging, the battery must be placed in a well ventilated area.
- This appliance is not intended for use by persons including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.

## OPERATING INSTRUCTIONS

1. Connect the charger's clips to the battery: Red pin to positive (+) terminal, Black pin to negative(-) terminal. Do not allow clips to touch each other.
2. This charger features voltage auto detect technology and will automatically adjust to accommodate either a 6V, 12V or 24V rechargeable lead acid battery. The LED indicates the battery charging status.
  - Red LED lights on - proper charging;
  - Green LED lights on - Battery gets fully charged and ready for use
  - Flashing Red LED- Short circuit, reverse polarity or battery voltage is too low to charge
3. The charging time for 6V/12V/24V 12Ah lead-acid battery takes approximate 18 hours.
4. Unplug charger from wall outlet and unclip battery from charger when charging is complete. Never disconnect charger from battery by pulling on the wires.

## SPECIFICATIONS

Input:	100-240VAC 50/60Hz
Output:	6V/ 12V/ 24V DC 1.2A
Battery Type:	6V 8-12Ah, 12V 8-12Ah, 24V 8-12Ah Lead Acid rechargeable battery.
No. of battery:	One battery per charge

## WARRANTY INFORMATION

Our product is guaranteed to be free from manufacturing defects for a period of 12 Months.

If your product becomes defective during this period, Electus Distribution will repair, replace, or refund where a product is faulty; or not fit for intended purpose.

This warranty will not cover modified product; misuse or abuse of the product contrary to user instructions or packaging label; change of mind and normal wear and tear.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and failure does not amount to a major failure.

To claim warranty, please contact the place of purchase. You will need to show receipt or other proof of purchase. Additional information may be required to process your claim.

Any expenses relating to the return of your product to the store will normally have to be paid by you.

The benefits to the customer given by this warranty are in addition to other rights and remedies of the Australian Consumer Law in relation to the goods or services to which this warranty relates.

This warranty is provided by:
