Cigarette Lighter Adaptor with Twin Socket

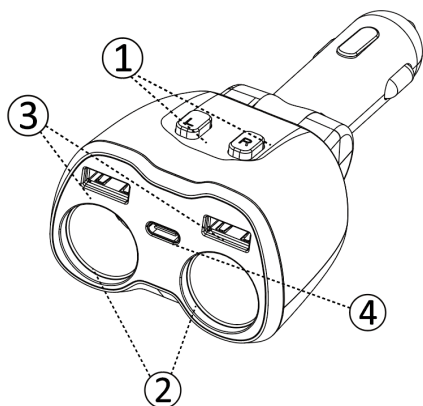

Instruction Manual

Please read the user manual carefully before using so that you can quickly understand the function and operation of this product.

FEATURES:

- Two cigarette lighter sockets output 12V-24V voltage which is the same as your car, charge your GPS and dash cam or other devices simultaneously.
- **Dual USB Ports**
The unit is built with two independent power management chips. The orange USB port is QC3.0 fast charging port, which can support 5V/3A, 9V2A, 12V/1.5A charging protocol, and the blue USB port supports Smart2.4A current output. Two USB ports can meet the fast charging needs of electronic devices such as Apple, Samsung, Huawei, and tablets.
- **Type-C Port Charging**
Android - Maximum support 1.5A charge
IOS - Maximum support 2.4A charge
- **Fuse**
The bottom of this product has a replaceable 10A automotive fuse. When the device is short-circuited, it will generate a momentary high voltage. After exceeding the current limiting voltage range, this product's built-in automotive fuse can timely cut off the current to protect the automotive circuit and electronic equipment security.
- **Cigarette Lighter Socket and Switch**
Two on/off switches control the cigarette sockets respectively so that you don't need to plug and unplug the GPS. Reducing wear and tear, extending the lifespan of the devices.
- **Voltage Reminder**
With an intelligent LED display, indicates the car voltage properly. When the car voltage is lower than 12V, it will warn with flashing number.

OVERVIEW:

1. On/off Switches
2. Cigarette Lighter Socket
3. Orange USB port support:
QC 3.0 Fast Charge Protocol
- Blue USB port support:
Smart 2.4A current output charging
4. Type-C port charging

FUSE REPLACEMENT:

Pull out the existing fuse from the bottom of the unit and insert a replacement 10A fuse into the hole to resume normal use.

PRECAUTIONS:

- This product is compatible with the voltage between 12-24V. Please do not try other models than other voltages to avoid unnecessary danger.
- If the display shows abnormal voltage, please plug in the power until the vehicle is in good condition.
- Please keep it away from children.
- Please do not disassemble it in case of damage.
- Please unplug it if you don't need to use it.

WARRANTY:

The product comes with a one year warranty period from the date of purchase. The following are not covered by the warranty.

- Disassemble this product without permission.
- Abnormal use causing surface wear.
- Improper use causing damage.

PRODUCT SPECIFICATIONS:

Voltage Input:	9V-30V
12V Sockets:	12V 10A (120W) combined
QC3.0:	5V/3A, 9V/2A,12V/1.5A (18W)
Type C:	5V 2.4A (12W)
2.4A USB:	5V 2.4A (12W)
Combined: Type C/2.4A USB	Max Output 17W
Total Max Output:	10A (120W)
