6. Share Video to Friend

6.1. Add your Friend's account in app

NOTE: Firstly ensure Friend's account already registered in Smartlife app

6.2 Share video to your Friend's account

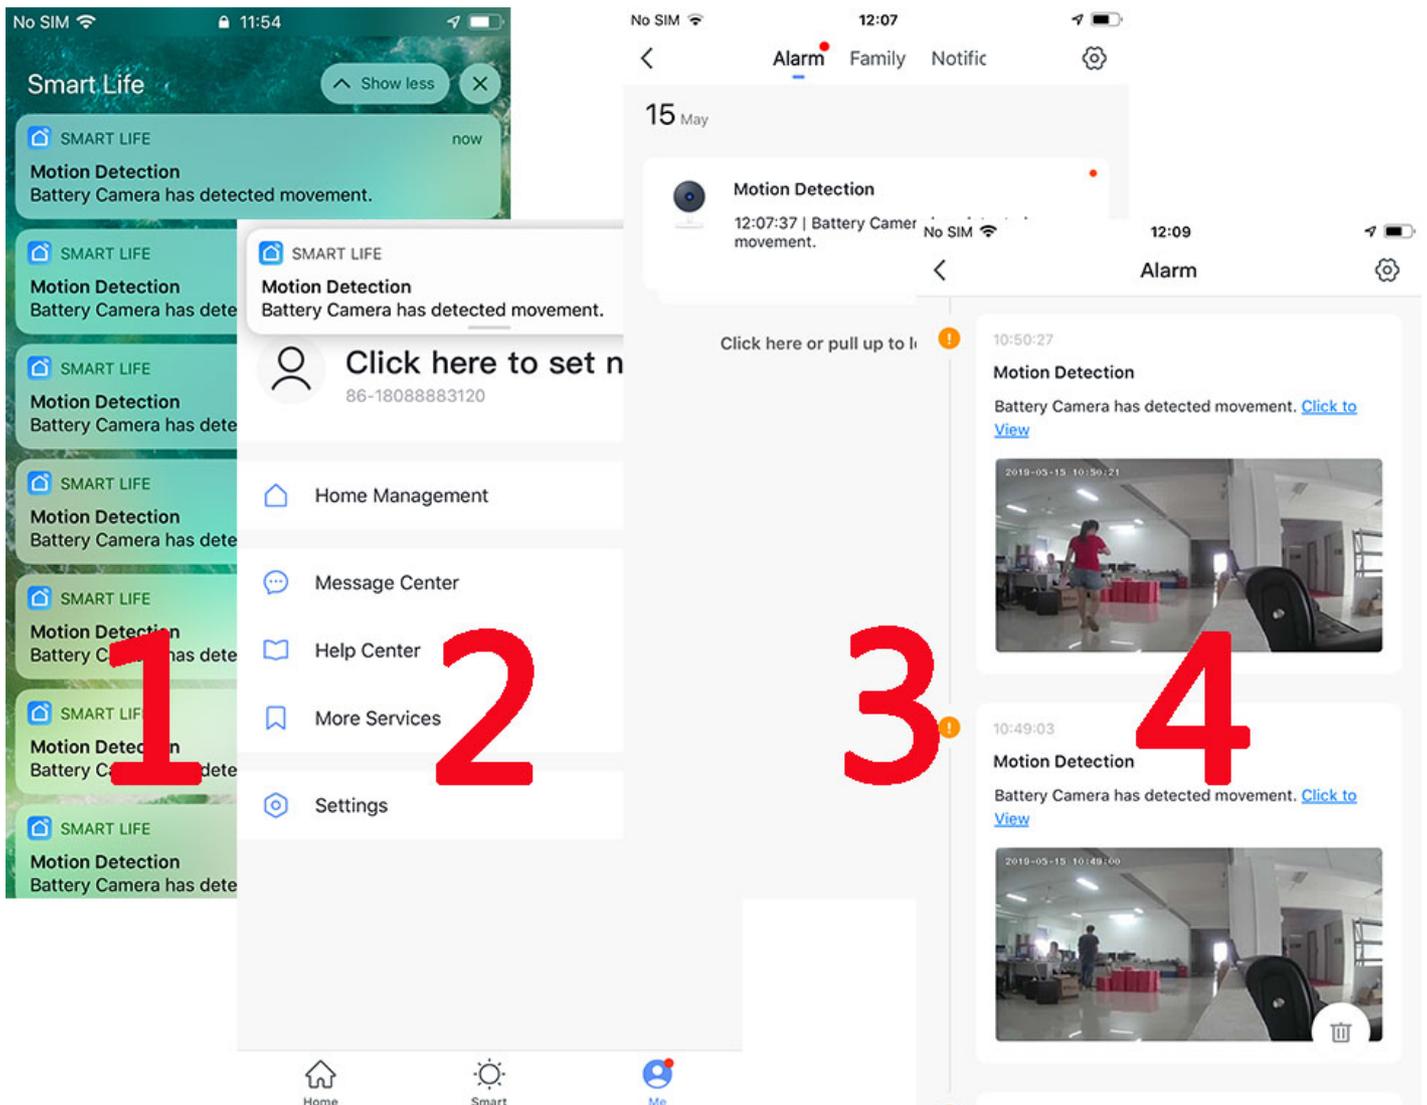

7. Alarm Push Notification and playback

Battery camera with PIR sensor is not designed for 7X24 all day recording, but just push alarm message notification to phone app and record video to SD card when PIR sensor detected human body motion events, then you can playback the motion videos wherever you are via Smartlife App.

When PIR is triggered, camera and system actions:

1. Alarm Sound in app (please enable Smartlife app notification in mobile setting and also mobile volume is on)
2. Alarm Message Notification (please enable Smartlife app notification in mobile setting)
3. Alarm snapshot and video record on SD card (please insert SD Card)

8. Camera Installation

8.1. You can put it on any flat place: table, chair, floor, etc.

8.2 Install with Wall Mount:

8.3 A3 Wall Mount Installation

Fix the iron ball bracket to the wall with screws or double-sided adhesive, and then magnetize the camera to the iron ball. Installation is very convenient and also easy to adjust the angle.

9. To reduce false alarms, please note that:

- Do not install the camera facing any objects with bright lights, including sunshine, bright lamp lights, etc.
- Do not place the camera too close to a place where there frequently moving vehicles. Based on numerous tests, the recommended distance between the camera and vehicle is 15 meters (55ft).
- Stay away from the outlets, including air conditioner vents, humidifier outlets, the heat transfer vents of the projectors, etc.
- Do not install the camera facing the mirror.
- Keep the camera at least 1 meter away from any wireless devices, including Wi-Fi routers and phones, in order to avoid wireless interference.
