# CONCORD

WiFi USB Dongle
for DVRs & NVRs   **QC5000**

Please disconnect the Ethernet cable from your DVR/NVR.

1.   Connect the USB Wi-Fi Dongle to a spare USB port on your DVR/NVR.

2.   Right-click the mouse in Live-View mode to display the Menu Bar. Click "Setup", then click "Network" then click "Wireless".

3.   Click the "Scan" button. A list of Wi-Fi networks that your device detects will be shown. Select your Wi-Fi network, then click the "Save" button.

4.   Enter the password for your Wi-Fi network, then click the "Connect" button. Make sure the password is correct before proceeding (click the eye icon to display the password).

5. TheDVR/NVR will connect to your Wi-Fi network. Click "OK" to continue (if the connection has failed, check that the password is correct).

6. The Link Status will change to Connected, indicating a successful connection. Click "Apply" to save the settings.

If the Wi-Fi dongle needs to be removed, click the "USB Wi-Fi" button on the Menu Bar (next to the date & time), then click "Safely remove USB Devices".

Note: Ensure the latest version of Concord software is installed prior to use.
