Connect DC adapter to power on the device

6. Wall mounting holes

Use the screw to mount the frame on wall, portrait and landscape available.
Getting started

Thank you for purchasing your very own Thomson Frameo.
Follow the on screen guide when powering it on for the first time.
Once you have set up your frameo, start connecting it to your friends and family.

Frameo app
To send photos to your frame, use the frameo app for iOS or Android.

Frameo quick setup

When starting your frame for the first time, you will need to setup the frame.
All settings can be changed through the settings menu afterwards.

• First you start by selecting a language. This will be the language used throughout frameo.
• Connect your frame to the internet by connecting it to a wi-fi.
If a newer version of the frameo software is available, then you will be prompted with an update dialog. It is recommended to update your frame immediately if prompted.
• Enter your name, and the location where you have placed your frame e.G. "Living room", "kitchen" or "office".

Start using Frameo

Start by connecting with your friends and family by providing them with a unique code from your frame.
If you want to be able to send photos to the frame yourself, start by downloading the app for iOS or Android on App Store or Google Play. Then use the code to connect your frame and app as described below.
Connecting a new friend:
• Make sure that your friend has downloaded and installed the frameo app
• Click the add friend icon on your frame ⊕👤 . A dialog will appear showing a unique code which is valid for 24 hours.
• Now share this code in whatever fashion you prefer e.g. SMS, E-Mail, IM, phone call, to your friend.

ONCE YOUR FRIENDS HAVE ADDED THE CODE IN THEIR FRAMEO APP THEY WILL AUTOMATICALLY APPEAR ON YOUR FRAME AND BE ABLE TO SEND YOU PHOTOS.

Navigating your Frameo

You interact with your frame through its touchscreen. Swipe left or right to go through your photos. To access the menu bar, simply tap once on the screen, this will show the menu. In the menu bar you will find quick access to the add friends dialog ⊕👤 and the settings menu. ⚙

Settings

Through settings, you can personalize your frame to your needs.

My frame

Frame name:
Changes the name of your frame. This is also the name the connected friends and family will see in their list of connected frames.

Frame location

Changes the location of your frame. This is the location displayed on your friends' and family's list of connected frames which can help to distinguish frames from each other.

Set language

Sets the language throughout your frame.

Sleep mode

Frameo offers a sleep mode which turns off the screen to reduce power consumption while you e.g. are sleeping. Its default setting is to turn off the screen at 23:oo and turn on the screen again at o7:oo.

To change this just set the sleep mode start/end time.
YOUR FRAME IS NOT POWERED DOWN OR IN STANDBY SO YOU WILL STILL BE ABLE TO RECEIVE PHOTOS DURING SLEEP MODE.

Manage photos

Show/hide photos

Select which photos to show/hide by tapping the particular photos you wish to show/hide. Hidden photos will NOT be deleted from your frame, you can always select them to be shown again. Use 🔲 to select or deselect all.

Delete photos

Select photos that you want to permanently delete from your frame by tapping the photo. Use 🔲 to select or deselect all and 🗑 to delete the selected photos.

Import photos

Allows you to import photos from an external Micro SD card.
Before you try to import photos from micro SD card, make sure you have micro SD Card with photos on inserted into your frame.

Start by selecting the photos that you want to import onto your frame. Once selected tap the import button ⬇ to start the import process.
It is currently not possible to add a caption or define the most important part of the photo when using the import function. Alternatively add yourself to your friend list and send them using the app.

Note:
1. It can not zoom in and out when playing the pictures.
2. When the picture is not in center, please tap the picture then there will appear a dialog, tap the icon 'adjust photo'to move the picture up and down, and tap the icon 'accept' to confirm the picture in center. Or tap the icon 'Fit to frame' to confirm the picture in center.

My Friends

This list contains all the people that are allowed to send photos to your frame.

Remove person
To remove a person from this list, thereby removing their permission to send you photos, tap the delete icon ✕ . You will then be asked to confirm the removal and if you would like to remove all photos received from this person.

Add person
To allow a new person to send you photos, simply tap the add friend button and share the presented code in whatever way you prefer.

Display and slideshow

Timer
Define the duration a photo should be displayed.

Show caption
Sets whether or not to display the captions that your friends have sent with the photo. Check to display captions. Uncheck to hide captions.

Brightness level
Adjust the brightness level of the screen.

Wi-Fi

Set which Wi-Fi the frame should be connected to.
Backup and Restore
Backup frame to Micro SD card
Tap to make a backup of your photos, friends and settings. The time of latest successful backup will be displayed.
Any existing backup on the Micro SD card will be overridden!

Automatic backup
If checked, your frame will automatically take a backup within 30 hours of you receiving new photos or making changes on your frame.
Requires that you have inserted a writeable Micro SD card into the frame.

Restore from backup
BEFORE YOU ATTEMPT TO RESTORE YOUR FRAME, START BY CONFIRMING THAT YOUR BACKUP IS UP-TO-DATE

To restore from a backup, you must first reset the frame. It is important to note that you cannot restore to a new Frameo frame
Note:
1. It can not save the photos to this TF card, it can only save the phots to the NAND flash.
2. As considering personal privacy it can not copy the photo from this product to computer. Also it can not copy the photo from computer to this product. you can send it by APP or Micro SD card.

Reset frame
Removes all data from your frame. This will permanently remove all your photos, friends/connections and settings.

About

Check for update
Check if an update is available for your frame.

**Share anonymous analytics data**
Sharing anonymous analytics data helps us tremendously with improving the frameo software. We understand if you do not wish to share this data with us. Set checked if you wish to help us improve frameo. Set unchecked to deny the sharing of anonymous analytics data.

Guide
Opens the quick start guide, that was shown when you first started the frame.
Note: To connect Wi-Fi after rest, you need to follow below steps:
1. Slightly press the screen,it will show below image.Click setting and find Wi-Fi at setting page

2. Click Wi-Fi,select Wi-Fi from poped up menu and connect.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
