INSTRUCTION MANUAL

Important Safety Information:

- **This product is not a toy.** Do not allow children to play with or near this item.
- The Heater's base can be mounted to the vehicle using Mounting Screws or an Adhesive Strip as desired.
- Verify the that installation surface has no hidden wires or other components before drilling or driving screws.
- Do not mount or use when tired or when under the influence of alcohol, drugs or medication.
- **Do not exceed the vehicle manufacturers' rated fuse capacity in the cigarette lighter circuit at all times.**
- **Do not leave heater plugged in while starting vehicle or while vehicle's engine is off. Low voltage during these circumstances will increase heat in the wiring and may blow the fusible link in the receptacle or another fuse.**
- **Check vehicle manual to ensure the cigarette lighter socket is rated at 15 amps or greater. Do not use a socket extension or pigtail to operate this Heater.**
- Only use this Heater for up to 15 minutes at a time.
Do not operate other 12VDC appliances at the same time.

OPERATING INSTRUCTIONS:

NOTICE: To prevent blowing a fusible link on the receptacle, only use with 15 amp rated cigarette lighter socket.

1. Place the Power Switch (11) and the LED Switch (16) in the O (Off) position. Plug in the Cigarette Plug (17) into the vehicle's cigarette lighter socket.
2. The Heater can be removed from the Mounting Base (6).
By holding the Handle (4/5) the Heater can be moved around as needed.
3. The LED Switch (16) turns the Light or Torch On/Off.
4. To select either the fan only or heater and fan option, press the Power Switch (11) to the setting as marked. Toggle Power Switch to the centre position to turn off these functions.

WARNING: Do not operate longer than 15 minutes at a time, allow heater to cool completely after use.

5. Unplug the Heater before leaving the vehicle.
