Cable:	3 meter(AC+DC)
Power waterproof grade:	IP44
Product waterproof:	IP65
Product dimension:	Light body:120MM* 115MM ground stake:180MM*10MM
Weight:	0.4KG

USER MANUAL
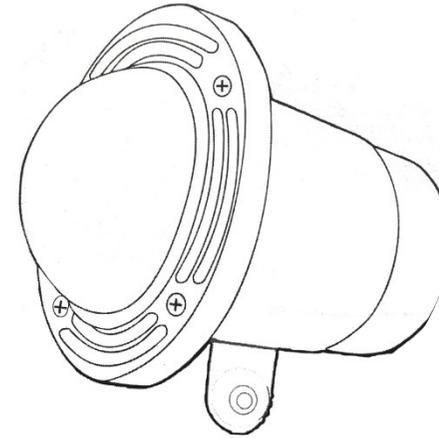

Putting into Operation/Use

1. Open the items supplied and remove all protective films and stickers that

   may be present, check all parts for possible transport damaged. If you should
   find any transport damaged, do not use the article, but contact the customer
   service department immediately.

2. If it is not already preassembled. unscrew the screw from the ground spike
   and use this screw to fix the ground spiker to the clip on the spotlight. There

   is a hole in the clip to allow you to do this.

3. Orient the spotlight towards the wall. To do this; you can loosen the two
   screws at the side which connect the spotlight and then clip and tighten

   them again after you have oriented the spotlight.

4. lay the mains cable in such a way that it does not present a trip hazard.
