

Rechargeable LED Head Torch with Adjustable Beam

Headlamp:

Battery compartment:

Specifications:

Lumens:	550
Burn Time:	Up to 5 hours
Light Modes:	High, Low, Flashing
Battery:	Rechargeable 18650 Li-ion Battery
Recharge Time:	4 hours

Inserting and Removing the Battery

- Flip open the three tabs on the sides of the battery compartment.
 - Open the battery compartment.
 - Insert the batteries one by one.
- NOTE: Ensure that the batteries are put in the correct way by following the plus (+) and minus (-) symbols inside the battery compartment.
- Close the battery compartment and flip the three tabs close.
 - Ensure to remove the batteries if the lamp will not be used for an extended amount of time.

Operating Instructions

- Press the ON/OFF switch located in the center of the battery compartment to switch the torch on.
- Press the ON/OFF switch to cycle through the 3 light modes: High, Low, Flashing.
- To change the focus of the light beam, pull/push the head of the lamp. Beam may be focused as a Spot or Flood light.
- Headlamp is adjustable to 90° by rotating the lamp head to the desired angle.

Recharging the Battery

- The rechargeable battery is mounted at the back of the lamp for even distribution of weight when wearing this lamp.
- Gently flip up the rubber protector covering the charging socket, be careful not to pull it off completely.
- Plug the charger into the charging socket.
- The light on the charger will be red when charging, and green once it is fully charged.
- Once charged, remove the charger from the charging socket, and push the rubber protector back in place.

NOTES:

- Ensure to keep the torch off when not in use.
- Never charge batteries near a heat source.
- Never get the internal parts of the torch wet, including the battery, charging socket, and charger.
- Never attempt to open, repair or modify any part of the torch or the accessories included.
