25W Mains Powered Glue Gun

User Manual

TH2022

GENERAL INFORMATION & SAFETY INSTRUCTIONS

- Keep it out of children's reach.
- Before use, check if the power socket is in good condition.
- After turning on the glue gun, do not keep it idle for more than 10 minutes. Unplug it when not in use.
- Do not use the glue gun in damp environment because the humidity will influence the insulation performance or cause electric shock.
- When under continuous use, do not forcibly press the trigger in aim to get all glue liquid out, this will cause serious damage to the glue gun.
- When under working, do not pull the hot glue stick out from the back side, otherwise the glue gun will be damaged.
- During operation the nozzle and melted glue will get very hot (about 200°C), do not touch other parts other than the handle.
- Do not try to disassemble or install the electric parts, this may cause danger.
- Do not pull the trigger or rotate the glue stick when it is not fully melted.

WARNING: The manufacturer is not responsible for any potential injury from misuse.

BEFORE FIRST USE

Prior to using your product, please read all the safety and operating instructions thoroughly. Please ensure you follow the steps below before using the product. We recommend you keep the original packaging for storing the product when not in use.

Please pay close attention to the section entitled Important Safety and General Instructions. Find a safe and convenient place to keep this instruction manual for future reference.

Unpack the product but keep all packaging materials until you have made sure your new product is undamaged and in good working order. Ensure you have all accessories listed in this manual. Plastic wrapping can be a suffocation hazard for babies and children so ensure all packaging materials are out of their reach.

WARNING: Before each use, clear the glue stick rear entry to ensure the area is free of remaining glue from previous use.

WARNING: Before use, check the power cable to ensure it is free from any damage.
